# Riley Brown

Attended University of Vermont  
Philadelphia, Pennsylvania

## Summary

I am a full stack Web developer with a preference towards the back end. I am eager to learn more and more as I begin my career as a Web Developer. I am quick to pick up new technologies and tools and ready to both learn from and work with others as part of a team. My background in education and psychology has cemented the importance of communication, which I believe will be a big help in determining achievable goals and explaining the workings of a project to those not directly working on it.

---
